Positive Statement – 35 USC § 101

1. The process recited in claim 20 requires a data structure (see last line of the claim) to process ink phrase/ink strokes which are digital data. Thus, this process could not be realized by external and manually performed. Additionally, the ink information is process by a computer system which is disclosed in the preamble. Thus in this case, the preamble “breathes life” into the claim.

REASONS FOR ALLOWANCE

2. The following is an examiner’s statement of reasons for allowance:

Regarding independent claims 4, 20 and 31, the prior art of records do not show the limitation of a method/system where the ink manager associates the reference context with an un-recognized ink strokes by appending the reference to the selected ink phrase data structure (or similar in scope) in combination with other limitations of the claims.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
